

Action Plan 2017-2018

The Subject Analysis and Access Action plan 2017-2018 outlines the key objectives for our Section in the coming year.

A report on these activities will be made available in the 2017-2018 Annual Report, available following the 2018 IFLA World Congress.

If you have questions about our work, suggestions about what you would like us to work on, or you would like to help us, please contact one of the members of the [Standing Committee](#).

Objective 1

Develop standards and guidelines that support subject access

Project/Activity:

- Continue the investigation of genre/form practices in national libraries and emerging models

Objective 2

Explore the potential for improved subject access by highlighting its application to classification and indexing

Project/Activity:

- Establish a working group to investigate issues of automatic indexing
- Organize an open session at the 2018 WLIC on the topic of automatic indexing

Objective 3

Promote optimal communication, networking resources, and working relationships among Standing Committee members

Project/Activity:

- Compile detailed professional information about standing committee members and corresponding members for inclusion on the website or blog

Objective 4

Liaise with national libraries and professional organizations to promote the new developments that support subject analysis and access

Project/Activity

- Monitor the output of related professional organizations
- Continue collaboration with the Bibliography and Cataloguing Sections to support communication and cooperation by producing the [IFLA Metadata Newsletter](#)
- Collaborate with the Cataloguing and Information Technology Sections on a shared satellite meeting for the 2018 WLIC
